

Dear Commissioners,

There are so many places to send things on your website, I just picked this one. I hope this finds it's way to the right people.

Please do what you can to prevent the unfair use of the public's airwaves by the Sinclair Broadcasting Group's obvious attempt to smear the campaign of Senator Kerry. They have announced plans to air more of the same dirty garbage about his time in opposition to the war in Viet Nam entitled "Stolen Honor."

This is outrageous this close to the election.

Can you imagine the uproar if a left-leaning television syndicate (if there even is such a thing) decided to air an anti-Bush movie in the same time frame?

The public's airwaves are already too politicized, please do what you can to stop this.

Very respectfully,

Bill Rhodes
